

Praties

The last few months have been a blur, it's hard to believe the season is already underway and there is still so much to do. Thanks to some great work by our partners the bikes, components and clothing all arrived in time for the Bay Series. We are still in the process of getting the new site off the ground which is taking longer than planned but we are getting there. 2010 promises to be a big year for the team, thanks for joining us for the ride.

Jayco 2010 Bay Series

The all new Genesys Wealth Advisers Professional Cycling Team kicked off the year in a great way with new recruit Joel Pearson finishing 7th overall against some of the fastest men on two wheels. Joel was well supported through out the series by big Kyle Marwood, Dan the man Furnston, Jezza Hills and Tom Robinson. Joel finished in the top ten on every stage with the team showing it will once again be a real force on the National scene finishing 5th overall. We thought the boys looked great last year but with new naming rights sponsor Genesys' colours being orange and teal the lads were easy to spot screaming around the streets of Geelong.

2010 National Championships

With the Nationals starting the day after the Bay Series finished it was a mad rush to get organised and up to Ballarat for Wednesdays Time Trial. Nathan Haas in his first race with the team pulled off a great ride to finish 4th in the U23 TT, a ride made all the more impressive due to the fact that he is suffering from the flu and is on a course of antibiotics. Will Clarke rode a great race in the seniors also narrowly missing the podium with 4th place. Will's rate of improvement is extraordinary considering he's only been riding for a couple of years so you would think he would be happy but he was bitterly disappointed with his ride and is vowing to turn Sundays road race on it's head. Stay Tuned....
